ALASKAN AFFAIRS.

Report From the Governor of Our Distant Territory.

GOLD SEEKERS HAVING A HARD TIME

A Letter From a Chicago Man Tells of Many Suicides, Hangings, Killings and Deaths From Exposure in the White Pass.

WASHINGTON, Oct. 23.—The report of John G. Brady, governor of Alaska, for the past fiscal year has been submitted to the secretary of the interior. It estimates the present population at 30,000 natives and 10,000 whites, predicts that with reindeer transportation mails can be sent all over Alaska during the winter and recommends that \$100,000 be appropriated for government buildings and \$50,000 for schools.

It says nothing has so retarded Alaska's substantial growth as the helplessness of settlers to obtain titles to their homes on account of the failure of congress to extend the general land laws and urges congress to create a commission of five, one senator, one representative and three bona fide Alaska residents, to codify laws for Alaska.

The secretary of the treasury is urged to continue the hunting of sea otters to the natives, for "if the white man is not shut off at once the Aleuts will have to be cared for by the government. Reviewing gold operations, Governor Brady says:

"Shipload after shipload of gold seekers and their freight have been rushed to the extreme limit of salt water navigation (Lynn canal), and there they have been literally dumped upon the beach, some above high water and many below, as they learned to their sorrow when the water covered them as they slept.

"The gold seekers have had a terrible time, but they are brave and started out to endure hardships. As a class, they rank far above the average manhood of the country.

"Skagway is being built up rapidly. Lumber is in demand, and lots are selling as high as \$1,500.

"Americans are anxious to secure a route to the Yukon which shall be entirely upon United States territory. Different parties are now out and are carefully examining the mountains between Yakutat and Cook inlet. This is the third season of the work in Cook inlet. The excitement over the Klondike has drawn many away from that district. Nevertheless, the output of gold this year will be no mean sum. The possibilities of the whole region bordering upon this inlet and upon Prince William sound will draw crowds of adventurers in the near future."

Tells of Klondike Tragedies.

CHICAGO, Oct. 23.—A letter written to friends by H. J. Gregory, formerly of this city, who left here for the Alaska goldfields in August, tells of hardships of the White Pass. "There have been six suicides, three hangings and 11 killings," he writes, "besides many deaths from exposure. It costs \$1 to get a letter through to Skagway and 10 cents to get it mailed. Prices are very high. Flour at Lake Bennett brings 50 per sack, bacon \$1 per pound and beans \$1 per pound. Horseshoe nails bring 50 cents each. A pair of shoes will bring any price you want to ask, and overalls bring \$5."

Won't Have to Pay, After All.

OTTAWA, Oct. 23.—The report telegraphed from Victoria that the Canadian government would charge a duty on every class of goods taken into the Klondike country, including miners' packs, is not correct. "There has been no change in the customs laws affecting that country, and miners will still be permitted to take in an outfit free of duty when not exceeding \$100 in value."

Perhaps Not as Large as Expected.

CHICAGO, Oct. 23.—Since the death of George M. Pullman there has been much speculation as to the amount of his estate, how it will be divided and who his successor will be. It is now understood that his will, which may be probated on Monday next, will not show so large a property as anticipated, as it is said he made various bequests before he died to his wife and children. Further than that, gossip has it that the car manufacturer, while shrewd and successful in his own particular line of business, was not at all successful outside of it; but, on the contrary, made several disastrous ventures and speculations which had the effect of materially reducing his fortune.

Colored Abductors Arrested.

KINGSTON, N. Y., Oct. 23.—After a search for about a week by a number of deputy sheriffs Frank and Henry Mendore, colored, have been arrested near Prattsville for abducting Katie Clum, a white girl, aged 16, whom they took to Teaneck, N. J., after Henry Mendore and the girl were married at Haverstraw. The two colored men went back to Prattsville after the girl had been taken from them by her father, Henry Clum.

Governor Hastings' Partner Dead.

PHILADELPHIA, Oct. 23.—Colonel George W. Jackson of Bellefonte, Pa., the banking partner of Governor Hastings, died here of acute kidney trouble. He was brought here a few days ago in a critical condition and was taken to the University hospital, where he died.

Hugo's Adherents Win.

PHILADELPHIA, Oct. 23.—The controversy over the use of Victor Hugo's "Les Miserables" in the Girls' High school has been settled by placing the work on the eligible list of French books. At a secret meeting of the committee the abridged edition of the famous work was accepted.

IN AID OF ELI SHAW.

Important Witnesses Found in the Camden Tragedy.

CLAIM THEY HEARD CRIES FOR HELP

Bear Out the Statements of the Accused Man and Refute the State's Claim That He Spent Two Hours Hiding His Guilt.

CAMDEN, N. J., Oct. 23.—The coroner's inquest in the Shaw-Shaw double murder will be held next Friday morning, but it is probable before that time Eli Shaw, arrested a week ago, charged with the murder of his mother and his grandmother, will walk out of jail free from suspicion.

Two important witnesses have been found whose testimony will corroborate Eli Shaw's story and wipe out the

ELI SHAW.

state's theory. Their identity has not been disclosed, but there is no doubt that they exist. Both are women and have not spoken because they did not want publicity. They will now speak to save an innocent man.

One of these women awoke on the morning of the murder and heard a pistol shot, but did not get up. Five minutes later there was another shot. Still she remained in bed. A few minutes later she heard agonized calls of, "Oh, murder! Oh, murder!" The person calling was Eli Shaw.

The other witness not only heard Eli's call for aid, but heard Eli's grandmother calling. She had known the family for years and recognized Mrs. Zane's voice.

These first in the house on the day of the murder said Mrs. Zane was sitting beside the open window and that there was blood on the outside of the window sill, as though she had leaned out to call for help.

The testimony of these women corroborates the story told by Eli Shaw on the morning of the murder. He said that after reaching the foot of the stairs leading from the third story with his mother, who was holding a lighted match, he saw through the partly opened door in the back bedroom articles on the floor. Mrs. Shaw, pushing the door open, entered. Eli was back of her.

As she entered there was a flash from behind the door, and a bullet struck Mrs. Shaw in the head. Eli ran to give the alarm. He threw up a window and, leaning far out, called for help.

These developments upset the claim of the state that Shaw committed the murders and spent two hours removing evidence of his guilt, breaking windows and creating an appearance of burglary. The doctors said the condition of the bodies indicated this. They say now the evidence of the women cannot be contradicted.

Shaw has not yet been connected with the revolver found in the chimney. William Zane, a nephew of Mrs. Zane, saw the revolver and said it was not the one he knew his aunt had that had belonged to her dead husband. He never saw it before.

The will of Mrs. Zane was admitted to probate yesterday. Under it Shaw will receive a large portion of her property.

Lithuanian Speaks.

WASHINGTON, Oct. 23.—In reference to reports to the effect that former Queen Liliuokalani has formally abdicated in favor of her niece, Princess Kaiulani, the ex-queen in person gave to a newspaper man the following statement: "There is no truth in my report that she has abdicated. No real action has been taken during the meeting of Kaiulani with her. The question of politics did not pass their lips. Kaiulani came from New York to see her aunt before going to San Francisco and left yesterday afternoon for that city, where she will stay a week. Such reports are spread by her enemies with a view to injuring her." The foregoing was dictated by the ex-queen, who requested, however, that it be used in "the third person."

Magowan Still Fighting.

TRENTON, Oct. 23.—Vice-Chancellor Reed granted a writ of assistance to the purchasers of ex-Mayor Frank Magowan's Clinton avenue mansion. The writ directs the sheriff to eject Magowan and deliver the property over to the purchasers, who are State Senator Skirm, Colonel A. R. Fuser and Captain Lawrence Faircliff. Magowan opposed the granting of the writ, claiming that the purchasers had bought the property from him under an agreement not put in writing. Counsel for Magowan, after the writ had been granted, served upon Sheriff Ashmore notice of appeal and claimed that this acts as a stay until the matter can be acted upon by the court of errors and appeals.

WOLCOTT'S DESIRES.

English Cabinet Dashes the Hopes of Free Silver Men.

A REPORT OF THE CONFERENCES.

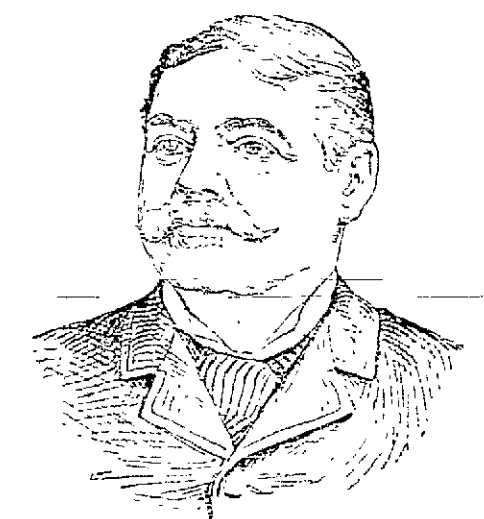

France, It Appears, Was Willing to Open Her Mints to the Unlimited Coinage of Silver If England Would Co-operate.

LONDON, Oct. 23.—The foreign office has issued the full correspondence, together with reports of the proceedings, in reference to the proposals made by Senator Wolcott of the American monetary commission to the British government.

The correspondence shows that the United States made the following proposals to Lord Salisbury: The opening of the Indian mints to the free coinage of silver; the repeal of the order making the sovereign a legal tender in India; the placing of one-fifth of the bullion in the issue department of the Bank of England in silver; the raising of the silver legal tender from 25 to 50; the issue of £1 notes based upon silver; the retirement of the half sovereign of gold and the substitution of paper therefor based upon silver; an agreement to coin annually a sum—not named—in silver or the purchase of a sum—not named—in silver annually; the opening of the English mints to the coinage of rupees and the British dollar, which shall be a legal tender in the Straits Settlements and other silver colonies and in Great Britain up to the limit of the silver legal tender by the colonies and the coinage of silver in Egypt, and finally an agreement upon something having the general scope of the Huskisson plan.

Conferences were held at the foreign office on July 12 and 15 to discuss the proposals with the American envoys, the French ambassador participating in the discussion. France announced her willingness to open her mints to unlimited free coinage of silver at a ratio of 15 to 1 if Great Britain would co-operate with her, as in the plan stated in the foregoing.

Senator Wolcott announced that the United States was inclined to accept this ratio upon which France insisted. Baron de Courcel, the French ambassador, suggested £10,000,000 as the sum of the British annual purchase of silver to fill the blank in the proposals, and

SENATOR WOLCOTT.

Senator Wolcott approved the suggestion. Sir Michael Hicks Beach stated that the heads of the government of Great Britain were unanimous in their refusal to open the English mints to the free coinage of silver.

The question of the reopening of the Indian mints was referred to the Indian government, which on Sept. 16 returned a long and elaborate argument culminating in a unanimous recommendation to refuse to entertain the suggestion. This reply was indorsed at the cabinet meeting held on Sept. 16.

It is now understood that, in view of this reply, Senator Wolcott and his colleagues have decided not to go to Germany.

Her Assistant Still at Large.

PROVIDENCE, Oct. 23.—What was thought to be an important clue to the identity of the would-be assassin of Miss Bertha E. Cutlers, the Brown university student, ended in nothing, and the authorities are left absolutely in the dark. "The parents of the girl are in a state of terror. They believe that some man is endeavoring to wreck vengeance on them for some family injury. When Mr. Cutlers' home was burned to the ground a few weeks ago, he was confident that it was the work of an incendiary, but attributed the act to some tramp and not to an enemy. The attempt to murder the daughter, however, has unnerved the family, and they fear for their lives. The girl is not out of danger yet."

Pullman Comp. Co.'s New President.

CHICAGO, Oct. 23.—Robert T. Lincoln has accepted the presidency of the Pullman Palace Car company, a position made vacant by the recent death of George M. Pullman, the millionaire founder of that vast enterprise. It was the wish of the family, which controls sixty-two one-hundredths of the stock, that Mr. Lincoln should take the head of the concern. He had been closely identified with the late magnate in a business and social way and is well fitted to manage the affairs of the company.

Want to Have No More Wars.

TORONTO, Oct. 23.—Yesterday was the third day of the Dominion W. C. T. U. convention, and the principal business was the election of officers. The president was instructed to sign the big petition which is to be presented to all the Christian nations of the earth asking that all international disputes be settled by arbitration and not by war.

A QUIET PERIOD.

Extracts From Dun's Review on the Trade Situation.

NEW YORK, Oct. 23.—R. G. Dun & Co.'s weekly review of trade in part says:

After the heaviest buying ever known in many branches during September and the first half of October, it was both natural and desirable that a more quiet period should give time for testing the size and temper of retail trade and for distributing part of the enormous quantities bought.

In textile goods the rush for orders went far beyond all distributive demand in August and represented great replenishment of stocks, and the similar rush for goods has been correspondingly great in other lines during the past two months.

In iron and steel and in boots and shoes there was actual danger of a speculative inflation of prices such as was seen in 1895, but it has been avoided, apparently, for this season by the solid sense of leading men who regard a time of comparative quiet as essential to the coming and permanence of prosperity in their lines.

The produce market acted with as little apparent reason as usual. Although Atlantic exports of wheat were 3,576,687 bushels, flour included, and for three weeks of October 10,039,993 bushels, against 7,742,214 last year, with western receipts not 500,000 bushels larger, the price advanced half a cent.

The treasury surplus gold fund of \$151,000,000 is the largest since 1880, and banks of eastern cities, holding \$20,000,000 more gold than currency, attempt to employ it in currency settlements.

Failures for the week were 234 in the United States, against 274 last year, and 36 in Canada, against 60 last year.

THE REPLY APPROVED.

It Explains Weyler's Removal and Presents Against Filibustering.

MADRID, Oct. 23.—Senator Sagasta, the premier, presided at the cabinet council yesterday. The draft of the proposed reply to the note of the United States presented through General Stewart L. Woodford, the American minister, shortly after his arrival here, was under consideration and was unanimously approved. Its text has not yet been published.

The reply explains that Lieutenant General Weyler has been replaced for political reasons and includes a statement of the government's decision to grant autonomy to Cuba and a protest against filibustering expeditions from the United States.

The council also approved unanimously the proposal introduced by Senator Moret, minister for the colonies, to grant amnesty to political prisoners in Cuba and Porto Rico.

Miss Cisneros Calls on the President.

WASHINGTON, Oct. 23.—The president gave a public reception yesterday, at which a large number of callers paid their respects to him in the eastroom. Among them was Miss Cosio y Cisneros, the Cuban girl who was accompanied by Mr. and Mrs. Karl Decker and Mrs. John A. Logan. Mr. Logan introduced the party, and Mr. McKinley shook hands with them, but, as is the usual custom at these public receptions, said nothing.

Luetgert May Not Be Retried.

CHICAGO, Oct. 23.—It does not seem probable that Adolph L. Luetgert will be tried again, for the board of county commissioners does not feel like voting any more money for that purpose, particularly if the sausage maker secures his release on bail, or by habeas corpus. This fact was established when some of the members of the county board declared that no money would be appropriated for another trial if Luetgert succeeded in securing his release on bonds.

IN ANCIENT GOSHEN.

Returned from a Visit—Personal Mention—Will Go to New York for the Winter—A New Progressive Movement—In No Haste to Wed.

From a Special Correspondent.
—Mr. and Mrs. Am. Lockwood, who have been visiting friends in Buffalo, returned to their home in this village, on Wednesday.

—The Misses Vail are visiting friends in Brooklyn.

—Miss Irene Bacon, who has been spending the summer with her uncle, Hon. Henry Bacon in this village, will return to her home in Jacksonville, Florida, on Monday.

—Clara M. Vail and family will leave Goshen the early part of next month for New York, where they will spend the winter.

—We all know that this is a progressive age, and not surprised at most things that happen, but the winter months in a newspaper, the other day, the expression "progressive lynching," will some one kindly explain what that means? The mysteries of progressive lynching, what, and progressive dinner parties have been revealed to her, but she has always supposed that when a person was once lynched, he had progressed about as far as he could in this world at any rate. It is said that in order to introduce an element of novelty into ultra fashionable society, its members have had recourse to holding "incubator parties," and invite their friends to witness the breaking of the eggs by the young chickens. This is an innocent and pastoral amusement, and possibly society may tire of it and in the reaction, take to progressive lynching parties; but there is a certain something about this form of amusement that is likely to keep it from becoming popular with the masses. The English are accused of taking their pleasures seriously but the average American likes a little more frivolity with his.

—Sometimes Cupid makes such sudden onslaughts upon his victims as to cause them to do rash things. They rush into matrimony after a few weeks or a year or two of courtship and love making, and sometimes the results of this mad haste are very serious. It is gratifying, therefore, to know that, now and then, due care and circumspection are observed. Such was the case of the couple who recently married after having known each other for seventy years. When people take three score and ten years to weigh their chances of happiness, they have had plenty of time to become acquainted with each other's faults and ailments, and to understand one another's peculiarities thoroughly, so that if they should happen to live to enjoy it, they undoubtedly can have much happiness together. The betrothedness of early youth is past; they have had sufficient time to accumulate enough of this world's goods to live comfortably, and to set an example to those foolish ones who do not remember that it is better to marry at leisure, even if they repeat in haste.

Just try a box of Cascarets, the finest liver and bowel regulator ever made.

J. M. Thirswood, of Graceland, Tex., says that when he has a spell of indigestion and feels bad and sluggish, he takes two or three Little Early Risers at night and he is all right the next morning. Many thousands of others do the same thing. Do you? W. D. Olney.

Cascarets stimulate liver, kidneys and bowels. Never sicken, weaken or grip. Ten cents.

DO IT FOR YOURSELF.

You can tell just as well as a physician whether your kidneys are diseased or healthy. The way to do is to take a bottle of Cascarets, and fill it with urine. If there is a sediment—a powdery substance—at the bottom, it is something wrong with the kidneys. Another sign of disease is a desire to urinate often, and still another sign is pain in the back or urine stains linen, there is no doubt that the kidneys are affected.

Any and all diseases of the kidneys, liver, bladder and of the urinary passages and constipation of the bowels are cured by Dr. David Kennedy's Favorite Remedy. There is no question about its being the best and most medicine in the world for such troubles. It quickly relieves and cures inability to hold urine, and people, young or old, who take it are not compelled to get up a number of times during the night. For putting an end to that scalding pain experienced in passing urine, nothing is so good as Dr. David Kennedy's Favorite Remedy. It corrects the bad effects of whiskey and beer; is pleasant to taste, and does not seem to be medicine at all. Diseases of the kidneys and bladder often require the use of instruments to push back the stony matter so the urine can be voided. In such cases Favorite Remedy should be taken without further delay or the disease may prove fatal. It is sold for one dollar a bottle at all drug stores. It is well worth many times its price.

There is more Catarrh in this section of the country than all diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure, with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars to any case it fails to cure. Send for circulars and testimonials. Address F. J. Lewis Bedell is upon the defensive and is so anxious to clear his legislative record that he protests too much. His organs are now bidding for the farmers' vote by telling how he introduced a bill in the Assembly amending the milk inspection law in their interest. It is naively admitted that the bill failed in the Senate and farmers are told that "Mr. Bedell was not to blame for that." The answer to this is that all of Mr. Bedell's bills, which were in the interest of farmers, got through the Senate without trouble. His influence was potent in getting through the county bonding bill—quer that it should fail when it came to a farmers' measure.

There is no real reason why party lines should be drawn in city affairs. The government of our city ought to be a purely business matter and until a few years ago politics cut but a small figure in city elections. Both parties often supporting the same candidates for the school and water boards. A little coteries of Republican politicians decided, however, that party capital could be made by Republicanizing all departments of the city government, and since then Middletown has been governed by Republicans according to the ideas of Republican bosses. The result has been a steady and alarming increase in the expenses of the city government until we are now spending a third more money for city purposes than we did four years ago and our tax rate, \$38.75 per \$1,000 of valuation, is the highest of any city in the State. What is the plan, then, the small property owner, who votes the Republican ticket and can whose thick and thin support the bosses, only getting in return for helping pull their chestnuts out of the fire. The bosses trade and traffic on the party loyalty of their dupes and the latter foot the bills. Does the plain citizen ever think that unnecessarily high taxation is robbery under the forms of law? Does he not know that every dollar wrung from citizens in needless city taxation means a loss of food, less cheer, less comfort, less clothing in many homes? Does he not know that now is a good time to cut nose from the bosses and vote as his own interests dictate?

LIVES LOST AT A FIRE.
Two Drunken Men Suffocated in a Burning Building.
BY ASSOCIATED PRESS.
New York, Oct. 23.—Fire this morning in the brick building on Broadway near Ninth, occupied by Gardner & Vail as a laundry, caused the deaths of Patrick Colopy, the engineer, and Henry Haight, the fireman.
They were under the influence of liquor, last night, and it is believed their carelessness caused the fire. When the firemen were able to enter the structure Haight stood leaning against a beam and Colopy's burned body stooped over the sill at a front window. Both had been suffocated in the midst of mad efforts to escape.
The loss on the building is \$25,000.

ONE OF LIFE'S IRONIES.
Wife Went to Police Station to Make Complaint Against Her Husband, and Found His Dead Body There.
BY ASSOCIATED PRESS.
New York, Oct. 23.—Charles Hardich, a compositor, was run over and killed by a fire engine in Brooklyn, to-day. The body was taken to a police station and just as the police had searched his pockets and discovered his identity, Mrs. Hardich walked into the station to make complaint for assault against her husband, and was shown the corpse.

Lull Is Acquitted.
NORWICH, N. Y., Oct. 23.—The jury in the case of William E. Lull, indicted for murder for the killing of Frank Cox at Plymouth last October, last night rendered a verdict of not guilty after being out four hours. Cox went to Lull's house and charged him with stealing two skunks. Lull denied the charge, and Cox threatened to kill him, following him into the house. Lull shot him and fled down the road.
Cohoes Theater Burned.
TROY, N. Y., Oct. 23.—The City theater in Cohoes was destroyed by fire. The old Cohoes tube works, which adjoined the theater, were also burned. The loss on the theater is about \$10,000. "The Wolves of New York" company, which was playing an engagement, lost all its effects. The tube works' loss is \$2,000.

From the Newburgh Register.

Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Traced to Paterson Where Their Trail Was Lost—Paid Their Livery Bill Like Honest Men.

From our Goshen Correspondent.
It has been definitely ascertained that the two crooks who betrayed the confidence, stole the money and bricked the anatomy of Charles R. Van Duzer, of Warwick, have crossed the Jersey line.
After leaving the vicinity of Middletown Pond, where Peter G. Lewis saw them, Thursday afternoon, they drove to Suffern, where they left their exhausted horse and, securing a fresh horse were driven to Paterson. In that city they were seen to board a trolley car carrying three gripsacks. At this point they disappeared again.
They paid the Suffern liveryman to return Mr. Masten's horse to Chester and also left money enough to pay Mr. Masten's bill for horse hire.

The Paterson News says there are reasons for believing that these same parties buncoed a Passaic county man named Schoonmaker out of \$2,000, last spring.

TOP OF HIS HEAD BLOWN OFF.

Was Looking Into the Muzzle of a Gun When It Went Off.

James Kinsley, aged fifteen years, was killed near Vail's Gate, yesterday, by the explosion of a gun while he was looking into its muzzle. The whole top of his head was blown off.
Young Kinsley was employed in the Montana Mills and when work stopped there at 12 o'clock went with some other boys to Daniel McMahon's house. There they secured a gun and were fooling with it on the porch. The version of the accident printed above is that given by the companions of the dead boy, but none of them are able to tell how the trigger came to be pulled and the gun discharged.
Coroner Perrott, of Newburgh, has the case in charge.

Strange Accident to a Child.

Harry Moore, two and a half years old, slipped out of its home in Newburgh, Thursday, and began playing with an old buggy. Later the child was found dead, hanging by the neck with its head inside the box of the vehicle and its body outside. Its neck was held by the top which it had evidently pulled down while trying to climb into the wagon.

Death was due to a bronchial affection from which the child had suffered for some time. A burial permit was issued.

Was Terrence McGowan Murdered at Port Jervis.

From the Newburgh Press.
A few days ago the Press recorded the killing, near Port Jervis, of Terrence McGowan, of this city. McGowan, it will be recalled, formerly worked for W. J. Dwyer, the stone dealer. Getting out of work he went to Port Jervis, and one night a message came to his wife, saying he had been killed by the cars. Mrs. McGowan now has reason to believe, however, that her husband was not killed by the cars. She has received a letter from a man who was with McGowan on the night of the accident. In it he says that he and the dead man were in a car with two tramps. The writer says that he did not like to stay with them and went along the train in search of a better place, leaving McGowan with the others. He was gone only a short time, but when he returned he found that McGowan had been killed and the two tramps had disappeared. McGowan was not a tramp, and it is possible that he was attacked by the hobos and his body thrown under the cars to divert suspicion.

There were many visitors during the day and they were all duly impressed with the magnificence of the structure.

SOME USES OF RAW EGGS.

From the Medical Record.
A mustard plaster made with the white of an egg will not leave a blister. A raw egg, taken immediately, will carry down a rash that cannot be extracted. The white skin that lines the shell is a useful application to a boil. White of egg, beaten up with loaf sugar and lemon, relieves hoarseness; a teaspoonful taken once every hour. An egg in the morning cup of coffee is a good tonic. A raw egg, with the yolk unbroken, in a glass of wine, is beneficial for convalescents.

Reached Further Than Was Intended.

From the Independent Republican.
Without intending to do so, Mayor Odell furnished an excellent argument for citizens of Middletown to vote the Democratic ticket when he published a table showing the tax rate in that city to be the highest in the State. Mr. Odell published the table in defense of the government of Newburgh by the Odell family, but it reached farther than he had anticipated.

Picked the Nuts, But Forgot the Farmer's Share.

Two boys gained permission of a farmer near Mud Mills to gather nuts on shares. They stripped every tree and got away with all the nuts. The farmer doesn't know who they are, but he says the boys will think they have run against a regiment of "O'Brien Stars" if he finds them.

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, and then the nerves and build up the whole system.

Severe Case of Dyspepsia

"I suffered from dyspepsia 20 years. I had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." MRS. EMILY F. BUMP, 45 Portland Street, Middleboro, Mass.

KELLY'S CASE.

Now a Man Named Murphy Figures as the Victim.

SOUTH NORWALK, Conn., Oct. 23.—Jennie Kinsella, who was fatally burned by vitriol the day before yesterday, is in an extremely critical condition. The acid during the attack entered her body, and it is feared she will die.

Kelly, who was arrested on suspicion, was discharged. Being released, the authorities of his case were closed.

According to the police, Kelly has been practically established that O. O. Murphy was the person who used the acid and that his intended victim was not Miss Kinsella.

John McCullough visited the Kinsella home and said that Murphy, who is his stepbrother, was the man who used the acid and made the attempt. He didn't mean it for Kelly, but she got it. He then changed his story, took it as belonging to his sister, and left the house.

Murphy kept company with Annie McKinnon, who said she was related to his attentions. He showed her to an extent that she was a victim of insanity, treatment for which he received in a State hospital. It is thought that Mrs. McKinnon was Murphy's intended victim.

Just before the vitriol was thrown Murphy was seen in the street with two glasses in his hand. Later he fled those who were searching for the guilty man.

Another Case of Acid Burning.

KINGSTON, N. Y., Oct. 23.—As W. R. Denman was passing the house of Archibald Otten, in Kingston, Mrs. Otten sprang out from behind a tree and dashed vitriol in his face. Throwing up his arms, Mr. Otten ran to the street to get some of the vitriol in his face.

Denman was taken to the hospital, and his eyes were badly injured. He is now in a critical condition. The woman was arrested.

VERY NICE CONDUCT.

Old Soldier Shoots Four Men, Burns Two Houses and Holds Up a Train.

PITTSBURG, Oct. 23.—Fighting Tom Cooper of the Army of the Potomac shot four men, burned two houses, held up a Pennsylvania railroad freight train and then escaped to the woods. He has not yet been captured. He is armed with a rifle, two revolvers and a knife, and his pursuers are not pushing him too closely.

Cooper is an old soldier and has carried a bullet in his head for 32 years. He came to Pittsburgh yesterday to secure a marriage license for his daughter, created a scene in a hotel and was arrested. Friends promised to care for him, and he was released.

When his arrival home he drove his family from the house, secured his rifle, revolvers and knife and, with a supply of ammunition, went to a hill overlooking the house. The latter is a double frame structure, and before leaving Cooper fired it.

After shooting three men who were fighting the fire, Cooper halted a miner in the road and shot him in the breast. Cooper was next heard of at the railroad tower near Baldwin station. He drove the telegraph operator from the place and stopped a freight train by displaying a red light. When the conductor came up to inquire why the train had been halted, Cooper shot at him. After holding the train 20 minutes he jumped from the cab and disappeared. About 50 men are now hunting for him.

MASKED EPILEPSY.

Strange Defense of Defendant Did Not Persuade the Jury.

NEW HAVEN, Oct. 23.—In the superior court a jury brought in a verdict of guilty against Henry T. Clark on the charge of embezzlement, and he was sentenced by Judge Wheeler to three years' imprisonment in state prison. The case against Clark attracted attention because of the novelty of the defense.

It was asserted that he was suffering from "masked epilepsy," which made him at times irresponsible.

It was declared that when he robbed his employers, Peck & Bishop, of \$150 and went to California with it, he did not know what he was doing from the time he took the money until the time he gave himself up on the Pacific slope. Expert evidence was produced to support this defense, but the verdict shows that the jury did not believe it.

Clark formerly was a resident of Florida and was identified closely with church work there. He was the superintendent of a Sunday school, and it was shown at the trial that on one occasion he had a man in his arms and went into another school and began to teach, not knowing at all what he was doing. This, it was argued, was another indication of masked epilepsy.

Yellow Fever Bulletin.

WASHINGTON, Oct. 23.—The reports from the yellow fever districts are as follows: New Orleans, 48 new cases, 5 deaths; Cayman, Miss., 1 new case; Bay St. Louis, Miss., 1 new case; Edwards, Miss., 1 new case; Memphis, Tenn., 10 new cases, 2 deaths. The report that fever exists in Memphis has not caused much alarm in that city, as physicians declare there is no danger of the plague spreading.

Hammond's Hard Luck Story.

CHICAGO, Oct. 23.—Private Hammond, the soldier for ill treating whom Captain Leavins of Fort Sheridan is now standing court martial, testified under oath that he was struck, kicked and stabbed with a sword by Captain Leavins during the heels over pavements and roads and kept in solitary confinement on bread and water.

Governor H. Stings Cancels Engagements.

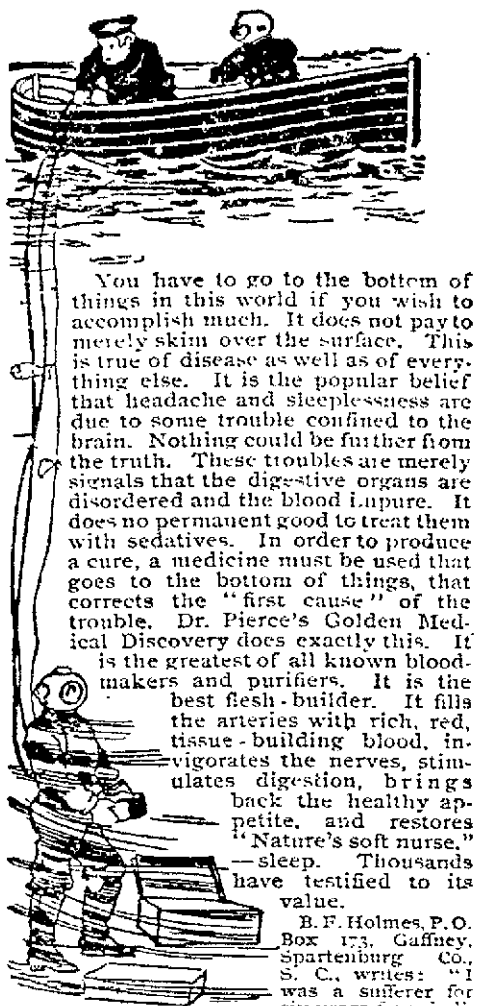

HARRISBURG, Oct. 23.—Owing to the death of his banking partner, George W. Jackson of Bellefonte, Governor Hastings canceled an engagement to spend the last week of the campaign on the stump in Ohio for the state Republican ticket and Senator Hanna.

Successful Safe Cracking.

ALTOONA, Pa., Oct. 23.—Robbers gained entrance to the postoffice at Van Orner, Cambria county. They cracked the safe with dynamite and secured \$25 in stamps and money.

New Title For Baron Escher.

LONDON, Oct. 23.—Baron William Balliol Escher, who has been succeeded by the Right Hon. Sir Nathaniel Landley as master of the rolls, has been created a viscount.

You have to go to the bottom of things in this world if you wish to accomplish much. It does not pay to merely skim over the surface. This is true of disease as well as of everything else. It is the popular belief that headache and sleeplessness are due to some trouble confined to the brain. Nothing could be further from the truth. These troubles are merely signals that the digestive organs are disordered and the blood impure. It does no permanent good to treat them with sedatives. In order to produce a cure, a medicine must be used that goes to the bottom of things, that corrects the "first cause" of the trouble. Dr. Pierce's Golden Medical Discovery does exactly this. It is the greatest of all known blood-purifiers. It fills the arteries with rich, red, tissue-building blood, invigorates the nerves, stimulates digestion, brings back the healthy appetite, and restores sleep. Thousands have testified to its value.

B. F. Holmes, P. O. Box 173, Gaffney, South Carolina, writes: "I was a sufferer for three years from indigestion, sore stomach, and constant headache. I tried several of our best physicians and found no permanent relief. I commenced the use of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets'—which gave me prompt relief. When I commenced using the medicines I could not sleep. I was restless, uneasy, feeling all the time, and my skin was yellow and dry. I weighed only 115 pounds. I now weigh 170 pounds. Have a good color, rest well at night, have a good appetite and can eat almost anything. I am now 40 years while under treatment by a physician I ate nothing but graham bread."

What is More Attractive Than a pretty face with a fresh, bright complexion? For it, use Pozzoni's Powder.

How to Be Happy! By using Ripau's Tablets, if you suffer with indigestion. They will be happy to recommend them to your friends, and so be twice made glad. 5c buys a trial package. 400 Boston doctors recommend them. Ask for the illustrated book of testimonials.

VITRIOL DASHED OVER HIM.

Mrs. Otten Sprang from Behind a Tree to Attack Denman and Was Burned Herself.

While Wilson R. Denman, of Ellenville, was walking from the railroad station to his home on a return from a business trip to New York, Wednesday evening, Mrs. Archibald Otten suddenly sprang out from a tree in front of her home while Denman was passing by and hurled a bottle of vitriol full in his face. Startled by her appearance, Denman quickly raised his arm, but both he and Mrs. Otten are badly disfigured, and Mr. Denman will probably lose his sight.

Denman was taken to a drug store and his family sent for. His son added to the excitement by fainting as soon as he saw how horribly his father's face was burned.

Mrs. Otten was arrested and taken to the village lockup. She was terribly burned about the face, and, owing to the fact that she was suffering intense pain, she was not imprisoned, but taken to a hotel in the custody of a policeman. Only by being forced to go to a physician to have her injuries cared for did Mrs. Otten reveal that she had any connection with the affair which led to her arrest.

So quickly did Mrs. Otten do the work that had it not been for her own injuries it is probable she would never have been connected with the assault.

Soon after the occurrence of the affair a crowd gathered in the street about the hotel, and threatening remarks were frequently made about Mrs. Otten.

The relations of Mr. Denman, Mrs. Otten, and Mrs. John Winslow, a beautiful widow, have been the talk of Ellenville for months. Mrs. Otten met Mr. Denman, pointed a revolver at his heart and threatened to shoot, but when he said "Blaze away!" her courage failed her. Some time ago the keeper of the cemetery found, one morning, posted on the tombstone of the late John Winslow, a scurrilous letter about Mrs. Winslow and Mr. Denman. The letter was written in a feminine hand.

Mrs. Otten was arraigned in the police court, Thursday morning, on a charge of raining Mr. Denman. She waived examination and was held to await the action of the Grand Jury. She will probably obtain bail.

Mr. Denman is one of the most prominent citizens in Ellenville. He owns a big electric light plant and other valuable properties. He is about forty years old and has a wife and three children. Mrs. Otten and Mrs. Winslow are also highly connected socially.

"THE WHITE SLAVE."

Barley Campbell's Masterpiece at the Casino, Monday Evening.

Robert Campbell, son of the late Barley Campbell, arrived in the city on Tuesday to prepare for an elaborate scenic production of "The White Slave," a drama reflecting life in the Sunny South before the outbreak of the Civil War, which will be given at the Casino, next Monday evening, Oct. 25th. The career of Barley Campbell as a dramatist was marked by more popular successes than that of any playwright America ever produced.
